PROFESSIONAL SUMMARY

Frontend Developer with strong hands-on experience building production-ready web applications using React, Next.js, TypeScript, and Tailwind CSS. Experienced in designing scalable UI architectures, optimizing performance, and delivering responsive, user-centric interfaces. Proven ability to convert business requirements into clean, maintainable frontend solutions while following modern development best practices. Seeking a full-time Frontend or React Developer role.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, shadcn/ui
UI & Motion: GSAP, Responsive Design, Mobile-First Design, Accessibility Best Practices
Backend & Data: Supabase, Firebase (Auth, Firestore), REST APIs, Async Data Handling
Tools & Platforms: Git, GitHub, Vercel (CI/CD & Deployment), Figma, GitHub Copilot, Antigravity CLI

PROJECT EXPERIENCE

Developer Portfolio | React, Tailwind CSS, GSAP

Designed and developed a modern, animated developer portfolio to present real-world frontend projects. Implemented scroll-based animations with performance optimization, reusable components, and a recruiter-focused layout that clearly communicates technical skills and project impact.

Sustainable Shopping Assistant | React, TypeScript, Supabase

Developed an AI-powered sustainability-focused web application integrating REST APIs and Supabase backend. Applied type-safe development, scalable UI patterns, and efficient state management to handle real-world data and user interactions.

Sebathi V3 | React, TypeScript, Tailwind CSS, shadcn/ui

Built a component-driven UI system following design-system principles. Focused on maintainability, consistent styling, and scalable component architecture suitable for production environments.

Admin Dashboard | React, TypeScript, Tailwind CSS, GSAP

Created a business-style admin dashboard similar to real enterprise products. Implemented reusable components, clean state flow, and interaction animations to enhance usability and user experience.

EDUCATION

Bachelor of Commerce (B.Com), 2021 — 80%
Developed a strong foundation in business processes, data analysis, and problem-solving. This background supports frontend development by enabling better understanding of product requirements, user workflows, and business-driven application design.

ADDITIONAL STRENGTHS

Strong understanding of frontend best practices, component architecture, and performance optimization. Comfortable collaborating with designers and backend teams, using version control, CI/CD pipelines, and AI-assisted development tools to deliver high-quality production-ready applications.
